Smartphone Free Childhood

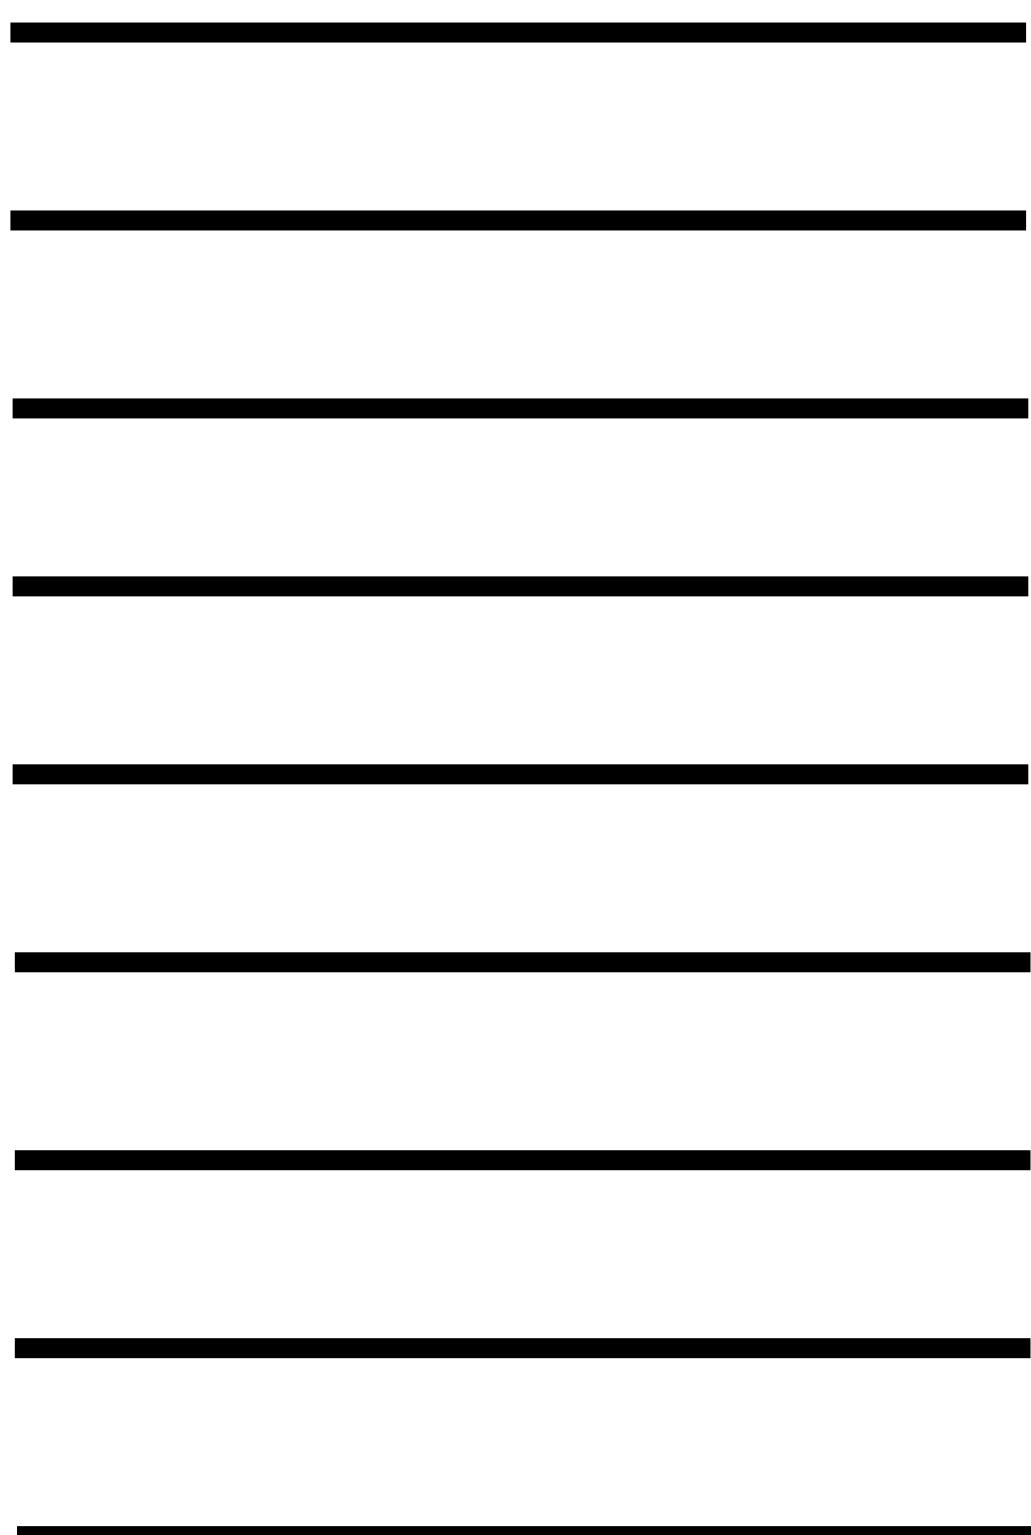

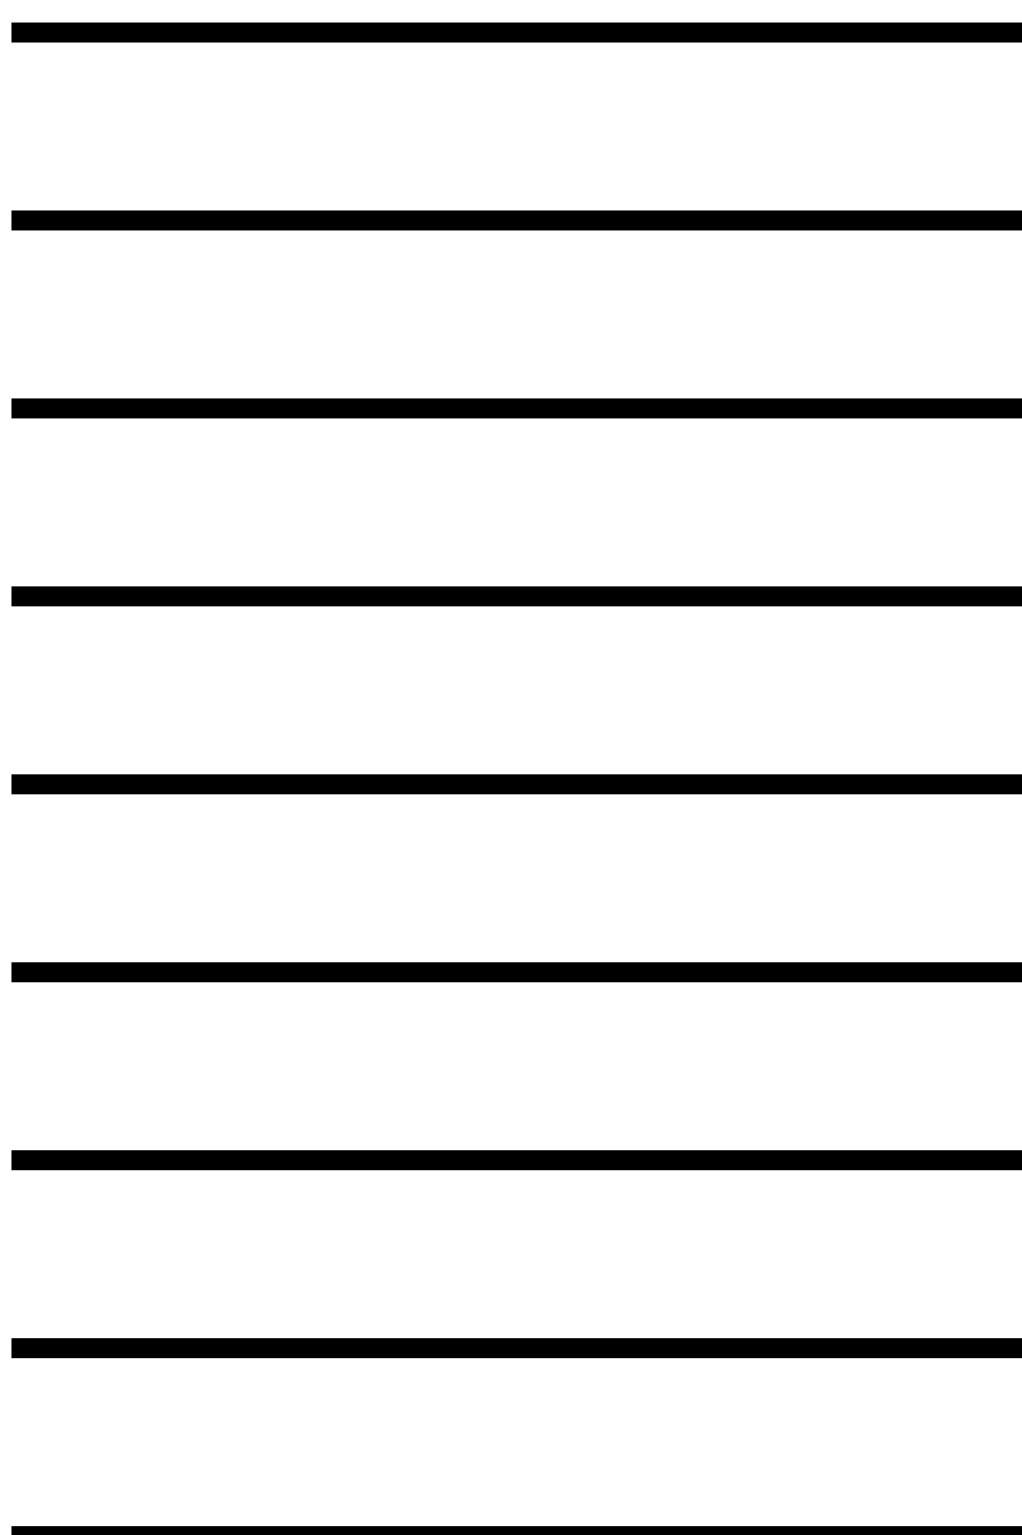

Sign the Pact

To delay smartphones until high school

Childhood is too short to be wasted on a smartphone!

When parents commit to the Pact, they're joining a wider community that says "not yet" to early tech exposure, online harms and addictions, and "YES" to a childhood that is about play, friendships, and real, unfiltered experiences.

Registration via our website begins when your child enters Primary School (from Grade 00). Please visit our website to register online at that time.
